

Glogster Tips

- Use Google Chrome—Glogster works much better on this browser
- Go to: Glogster.com
- Set up your account by creating a nickname, add your email and password (it is your responsibility to remember it).
- Choose your template
- Premium templates cost \$\$\$\$. Skip those.

Gather your images and graphics in one place. You can save items to the desktop (temporarily during class) or a flash drive. Upload them into Glogster. It takes a few minutes to upload images—particularly if they are large ones

If you plan to use music or video on your glog, don't upload it until you are finished with everything else. It takes forever! I'm serious!

- Edit your glog by clicking on "Tools." From there, you may choose photo and text boxes.
- Save it
- Add a title
- Add the info about your glog including keywords (optional)
- Hit "save" again
- When you are finished, copy the link and send it to Ms. Damlich: esdamlich@cps.edu

(You can easily access my email from the library website under "staff.")

In your email, send me: Your name, teacher's name, period and your link.

 Your name Teacher period
e.g. Carolina Villalpando, Ms. Dugandzic, 3rd period
